

### Design Technology

In our topic lessons we will be investigating the use of pulleys and discuss efficient designs for lighthouses. We will also be creating our own moving mechanism. We will look at existing products and evaluate their uses.

### Music

This term we will be listening to music from different islands around the world and thinking about how this represents the island and their culture.

### History

We will be looking back at people that have influenced island life and famously lived on islands, for example the Victorian Grace Darling who lived on the Farne Islands. We will look at diary entries, letters and looking at paintings. We will also learn about the history of seaside holidays. Finally looking at separating facts from fiction when we learn about pirates!

### Computing – Research and algorithms

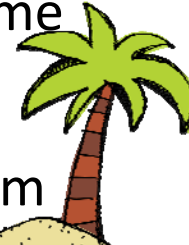

As part of our topic lessons this term, we will be using technology to create our own algorithms and move 'sprites' across our own backgrounds and creations. We will also use the internet to research famous people.

An Island Home

Year 2

Summer Term

### Geography – Locating islands around the world

During our geography lessons we will be locating islands around the world using the internet, atlases and map. We will discuss the difference between two different islands and the physical and human resources on these islands.

### R.E.

This term in R.E. our focus will be caring for others, animals and the environment. We will discuss the things we love most and learning to appreciate the world around

### P.E – Swimming and Athletics

2W will be finishing off their swimming lessons and 2G will begin their five week course of lessons. We will be focusing on Athletics and games this term during our other PE lessons. We are lucky to be joined again by specialised coaches in both classes across the Summer term to focus on Athletics, football and other areas.

### Art & Design – maps and islands

This term, we will be designing our own islands and creating our own maps relating to the story Katie Morag. In year 2 we will be choosing different materials and textiles to make our own seaside and island creations.
